RFID Experts Stud Master

Fully automated Sheep drafter.

The RFID Experts Stud Master allows for fully automated weighing, drafting and record keeping. Sheep easily flow through the system, which enables the farmer to draft more than 500 animals per hour.

At the same time all individual animal records can be transferred directly to Management Software e.g. BenguFarm Sheep & Goat which creates a paperless system.

RFID EXPERTS STUD MASTER SHEEP AUTO DRAFTER:

- Accurate hands free weighing and drafting
- Tru-Test XR5000 as standard component
- Integrated with management software e.g. BenguFarm Sheep & Goat
- Drafting according to multiple criteria e.g. weight, sex, dame, sire, breed, DOB, etc.
- Up to 5-way drafting
- **Increase efficiency and reduce the cost of labour!**

Our systems are user friendly and come with on-site installation and training. In addition we offer telephonic and online assistance via TeamViewer.

Intelligent Sheep Management

Modernize your Sheep management record keeping.

UPGRADE
YOUR
EXISTING
WEIGHING
SYSTEM!

AEA580 EXTERNAL ANTENNA

AGRIDENT APR500 READER:

- Quick, easy and accurate recording
- Transfer your records via USB or Bluetooth
- Process tasks such as mating, animal registration or pregnancy status fully integrated with BenguFarm Sheep & Goat
- Programming can be done to compliment the farmer's existing process
- On board database can store up to 6000 records linked to 50 different data fields
- **Made in Germany**

ELECTRONIC EAR TAGS (RFID):

- Identify each animals unique characteristics
- ISO Standard and ICAR approved
